Space-saving design, fewer user interventions, and expandability to meet your business needs.

The best value in their class. For the busy environment that needs to combine productivity with cost-efficiency, nothing fills the bill like the OKI® B4200 and B4300 Digital Mono Printers. They provide fast, reliable printing—and a low total cost of operation.

Both the stand-alone B4200 model and networkable B4300 deliver 19 pages per minute, with the first page printing in less than 7 short seconds. They produce output that's clear and crisp in 1200 x 600 dpi resolution. They're perfectly suited to meet the demands of your business: the B4200 is an affordable, cost-efficient solution, and the B4300 is an easy-to-use, high-traffic desktop or workgroup machine.

Fewer user interventions. Both models have a standard 250-sheet paper capacity housed in a fully enclosed Letter/Legal/Universal tray, and both can be outfitted to hold up to 750 sheets with an optional 500-sheet 2nd paper tray.

The OKI B4200 has 8 MB of standard RAM; the B4300 ships with 16 MB—and both can be upgraded with a 32 MB RAM option.

Fit for any work environment.

With standard USB and parallel interfaces, the B4200 and B4300 offer broad-based connectivity. Both printers have PCL® 6 emulation (the B4300 also has a Postscript 3 emulation option), and perform equally well with Windows® XP, 2000, 98, 95, NT® 4.0 and most other popular operating systems.

Taking on network responsibilities.

An OKI B4300 printer equipped with an optional internal OkiLAN® 8100e print server can make network printing affordable at virtually any performance level. That can translate into a much lower cost per seat, which can be a vital consideration as your office network grows and expands in functionality.

Built to perform. In terms of durability, the OKI B4200 and B4300 are tough—with a duty cycle of 15,000 pages per month. And their Energy Star® compliance makes them environmentally friendly, as well.

OKI B4200 and B4300 Digital Mono printers. Proof positive that big performance can come in compact packages.

Designed to Perform in the Most Demanding Environments.

PROVEN.
